SKILLS

Figma	HTML	Bootstrap	Leadership
Illustrator	CSS	React	Teamwork
Photoshop	Javascript	Webpack	Creativity
InDesign	JQuery	Jest	Adaptability

EXPERIENCE

Present

Career transistion from sales to software development

For the last decade I have been creating content for companies while also maintaining a successful sales career. I decided to transfer back into a full-time front end developer role and use 2022 as a year for self-study and preparation.

Nov 2021

Mar 2020

Graphic & web content creator at Bluegrass Book Buyers

Created graphic stationary as well as website and video marketing content for a higher education start-up company. I was able to exerise creative control and direction over most projects while also learning to delegate tasks to others.

Apr 2017

July 2014

Junior graphic designer at TMX Financial

Collaborated with senior designers, assisted on team meetings, and completed multiple tasks on a deadline. I learned how to be an effective member of a design team and contribute to a positive workplace environment.

Nov 2013

Dec 2010

Self-employed freelance designer

Met personally with clientle to identify project objectives, set deadlines, and solicit feedback for final delivery. Projects primarily encompassed branding, stationary & brochure websites using Adobe Creative Suite.
